Collection Locations: Broadway Music, Brazee Market, Nature's Northeast, Hampshire Nursery, Location, Location, Location.

## Save your empty printer cartridges. They help us earn money!

We have enrolled in an incredible new fundraising program called InkBank Cartridge Recycling. This program offers us an almost effortless way to raise money to support our projects – and to protect our planet. We earn money simply by recycling used printer cartridges that were destined for the trash.

Most of the inkjet and laser printer cartridges used in homes, schools, and the workplace have a high recycling value – from \$1.00 to as much as \$14.00 each. InkBank pays us cash for every eligible cartridge we collect.

Since more than 87% of all computer printer inkjet and laser cartridges end up in landfills, the potential for us to earn a significant amount of money through recycling is almost unlimited. As long as we participate, we'll continue earning cash. Fundraising couldn't be easier. There's nothing to buy, nothing to sell, and no cost for participation.

### Here's how you can help.

#### **Save the cartridges you use at home.**

Save the eligible cartridges you use at home and bring them to our central collection box.

#### **Ask others to help – We'll provide the supplies**

Ask friends, family and employers to help support our fundraising efforts. InkBank provides additional recycling bags and boxes so that the cartridges can be collected in multiple locations. InkBank also pays for shipping and can pick up boxes from your workplace or other businesses upon request. The collection materials are also postage prepaid and can be dropped in any mail box. Let us know if you would like supplies to help us collect more cartridges.

#### **Collect only eligible cartridges**

It is very important that we collect only the cartridges that are eligible for recycling. The back of this flyer has a complete list of models that are recyclable and more detailed information about eligibility requirements. Please review it carefully. Unfortunately, Epson inkjet cartridges are not recyclable.

#### **Keep up the momentum**

When we make recycling a habit, we'll also continue raising money with no effort. So, save all your eligible cartridges – and ask others to do the same. Over the summer. Over the breaks. Year to year.
